

CHINA.ZUN YI HAI DE SPARE PART FACTORY
CHINA.YIWU POWERFUL EXPORT&IMPORT CO.,LTD

COMPANY PROFILE

Yiwu Powerful Export and Import

is a leading company in manufacturing a range of automotive components & spare parts .

After the great success and the well reputation that our products got in the domestic market, as manufacturer we decided to set up Yiwu Powerful Export and Import to spread this success to the international market in some auto parts.

Yiwu Powerful Export and Import started as an industry and have never seen back. We have successfully crafted a niche for ourselves and set a benchmark in the industry. Our vision and aim is to offer maximum satisfaction to our clients and in order to meet this, we always try to come up with innovative ideas. Supported by more than 15 year of work in this field and an able team of experienced and well versed professionals, we are able to manufacture products those are acclaimed in the market for their performance, speed and quality.

We are always looking to make a partnership with those how are looking for a competitive products , our products are made by ourselves so this made us mater the core technology, control quality and reduce the cost. Moreover the QC department is in all our factories to carry out factory inspection before delivery (PDI).

Also we are also looking for new partnership in all world to expand our brand and products. Since our clients across the world the company is always ensured that its products are meeting the specification & international production high standards and certificates such as saso, ce, tuv, ISO 9001 and other required certification.

FACTORY EQUIPMENT

IGNITION WIRE SET

كابلات الاشتعال

Improves engine performance.
يحسن من أداء المحرك.

Are efficient at the increased humidity
تتسم بالكفاءة عند زيادة الرطوبة.

Less fuel consumption. Reduced
exhaust emissions
يقلل من انبعاثات العادم. ويخفض
من استهلاك الوقود.

Are efficient in arange of temperaure from
60- up to 250+°C
تتسم بالكفاءة في معدل درجة الحرارة من
- 60 إلى + 250 °C

Structure of silicone ignition cable:

أجزاء كابل الاشتعال المصنوع من السيليكون:

- 1-Silicone lead of cable
أنسجة قوية من خيوط السيليكون.
- 2- Dielectric silicone insulation of high durability.
عازل سيليكوني ذو متانة عالية.
- 3-Synthetic heat-resistant fibers.
الياف مصنوعة لمقاومة الحرارة.
- 4-Silicone insulation covering.
غلاف عازل من السيليكون.

Q bird® ignition wire set is one of the main products that our company manufactured and developed in our factories for more than 6 years, and have a production capacity that we can cover and export to the international market.

Q bird® also manufacturing for many vehicle models like Hyundai, Toyota, Daewoo and other European & American vehicles including the domestic vehicle factories which already we are contracted with them.

Our wire set are manufactured according to international standards and certifications and can stand and resist the different climates. It is efficient in the range of temperature from -60°C up to +250°C and increased of humidity.

In order to match the high voltage with high temperature of engine, we must enhance the temperature resistance level of high voltage wire. The temperature resistance of the original PVC wire body and EPDM wire body cannot meet the operating requirement. Because of this, we makes a serious appraisal by the demand of the customers, and the further improvement of the wire body and the protective jacket. In order to make the high voltage wire which was developed by our company get a higher performance and quality, we draft a plan as bellows:

- ✓ Q bird wire set is a special features with high voltage resistance at ≥ 35 Kv/5 min
- ✓ The insertion force is one of the Q birds characteristics which influenced the touch reliability and leak proofness of the wire and coil, so the insertion force set at 40N~100N
- ✓ The size of the connector termination connector size connect with ignition plug and with ignition coil influence the touch reliability of the installer to feel and hear that a click connection has done and fit, however the connection is in difficult to see location.
- ✓ Fit length of each wire; each wire in the set is pre-cut to the exact length and the wire set are ready to install right out the box.
- ✓ Silicone wires ; we produce a variety of grades of the high voltage wire body. the 7 and 8mm ignition wire are SAEJ2031, the highest quality wire used by our factories. These wire can withstand temperature from -60°C to +250°C and voltage resistance property can reach 40 Kv and above, our wire set has passed tests covering everything from electrical properties to shrinkage to chemical resistance and accelerated life testing.
- ✓ Strong connections: The terminals are attached to provide an extremely strong connection ensuring the cable and boot will not separate during removal and installation.

Company product quality target;

- Service life 60000KM/3 years
- ✓ Insertion force at 40N~100N
 - Voltage resistance at ≥ 35 Kv
 - Service environment -60°C~+250°C;temperature resistance of the ignition plug's productive jacket can reach 260°C

Certifications; to design, develop and process control under ISO/TS16949, and use the tools APQP、FMEM and etc, to make a strict and control plan the quality.

Strict quality inspection; We control the quality strictly from purchasing material and the cooperation parts, from each process to the final inspection of the product. QC department is established and responsible to not allowed to the unqualified product to go to the next process, as all production process is subject to the QC.
